

The Gallery was conceived in 1990 by Dona Taylor and Bill Hoover, the principals. Dona and Bill have been independent jewelry retailers for over 30 years. It is the contributions of the whole team; from the artists to the gallery managers, sales associates and back office personnel that delivers the love of our business.

SAN FRANCISCO

"your love story begins here"

# THE GALLERY OF JEWELS

San Francisco is a cosmopolitan marketplace. This city is rich with people who love, appreciate and support the artistic community. Each busy site serves a wide and varied clientele. Visitors from all over the world, combined with the Bay Area's 8 million residents, encourage a culturally rich experience. We are not a "cookie cutter" jewelry store, so each gallery has its own distinct selection. Have fun exploring all three locations!

Gallery of Jewels is dedicated to creating and managing a specialized retail jewelry marketplace. The Galleries represent and sell handcrafted, limited edition jewelry by Bay Area, Regional and International jewelry designers; they represent each artist individually, and collectively achieve an attractive variety of silver, gold, and platinum adornments. With more than 100 artists in our portfolio, there is always something special for your fashion, engagement, wedding, and commitment needs.

The creation of custom jewelry is a rewarding process: ideas are collected and transformed into an artist's rendering; first, it becomes a wax model; ultimately, it manifests as the final piece. Confirming each step along the way provides confidence that your dream will come true.
